

More about Joseph Duda

Joseph offers multi-dimensional healing facilitation by focusing on the core cause of issues currently manifesting in clients' lives. He is a trained psychic, empath, and body worker. Joseph's approach is unique in that he strives to embrace the client's belief system paradigm, rather than assuming the client will follow his. This method ensures a rapid delving into the origins of the deep disturbances affecting the individual, and has proven successful on high-level trauma victims involved in ritual satanic abuse, governmental abductions, and other devastating life experiences.

Joseph assists people to transform the structures of consciousness to allow them to create different realities. He integrates dimensional DNA healings with grounded structural healing techniques. Over the past 25 years, Joseph has created men's groups and healing seminars and has spoken about spiritual awareness to thousands of people. Though he has studied numerous healing modalities, he has relied primarily on his individual Divine Essence for guidance.

In his own healing journey, Joseph has discovered an intimate connection with Jeshua ben-Joseph (Jesus). He has direct cellular and soul memory of the challenges two thousand years ago bringing through the Essene and Christ teachings. Many friends and clients are attracted to Joseph and Robin to evolve the Christ Consciousness into its new balanced expression. Joseph has pledged a form of Divine Service that honors the physical and emotional bodies equal to Spirit.

Joseph is a licensed Architect and General Contractor, a musician, a fine artist, and a former international athlete.
